

# PHI PHI ISLAND- MAYA-BAM BOO BY SPEED BOAT

The Phi Phi Island is located between the large island of Phuket and western Andaman Sea coast of the main land. The islands are administratively part of Krabi province.

Ko Phi Phi Don is the largest island of the group, and is the only island with permanent inhabitants, although the beaches of the second largest island, Ko Phi Phi Le, are visited by many people as well. The rest of the islands in the group, including Bida Nok, Bida Nai, and Bamboo Island, are not much more than large limestone rocks jutting out of the sea.

The Islands came to worldwide prominence when Ko Phi Phi Le was used as a location for the 2000 British-American film 'The Beach', from which there is thriving bird's nest soup industry.
